FOR GOVERNOR

Sergeant Sam W. T. Lanham

We have received the initial number of the Brand, a monthly magazine published at Hereford. It is beautifully printed and very nicely arranged and we hope it will be appreciated to the extent of brilliant financial success for its promoters.

With our X-Ray machine we are able to see exactly the condition of an injured or diseased bone or joint, therefore are able to apply proper treatment at once. Drs. Odell & Stewart, Canyon, Texas.

Judge Veale of Amarillo is out in a letter setting forth his reasons for not being a candidate for judge of this district. We have always liked Judge Veale and had hoped to see him fill the office he is eminently fitted for; but he took the wrong side of the prohibition question and is politically dead.

Have you seen those lovely birds eye maple bedroom suits at Oscar Hunt's. They are exquisite, as also is their new line of chairs and bed lounges.

Two by four editors are not the only ones who are paid off in post holes and pumpkins it seems. W. J. Bryan says he has received recently a box of oranges, a carcass of mutton and a keg of nails on subscription. Republican politicians can not make it stick that the Commoner is a failure as long as things are coming that smooth—Hall County Herald.

If you are anxious to sell your property list it with Buie & Wallace.

We are needing rain or snow very badly just now. Everything is so dry and almost every day high winds prevail and it is no wonder fires are pretty nearly a daily occurrence. A rain or snow would enable people to plow fire guards and would also benefit the grass.

Remember Chamlee the jeweler can mend any broken piece of jewelry, no matter how bad the break.

The Canyon Mercantile Company are getting their new goods in every day and surely fabrics and colors are lovelier than ever this spring. They have some goods that would coax a dollar out of the pockets of the most economical woman.

Mr. J. M. Vansant is now in the real estate business and solicits the patronage of the public. Give him a trial and be pleased at the results. tf

Miss Mae Lahr was quite ill the first of the week but was improved somewhat Tuesday evening.

LOST.

Five head of horses, 4 branded quarter circle heart on left shoulder; one sorrel yearling filly unbranded. Liberal reward for recovery or information leading to recovery of same.

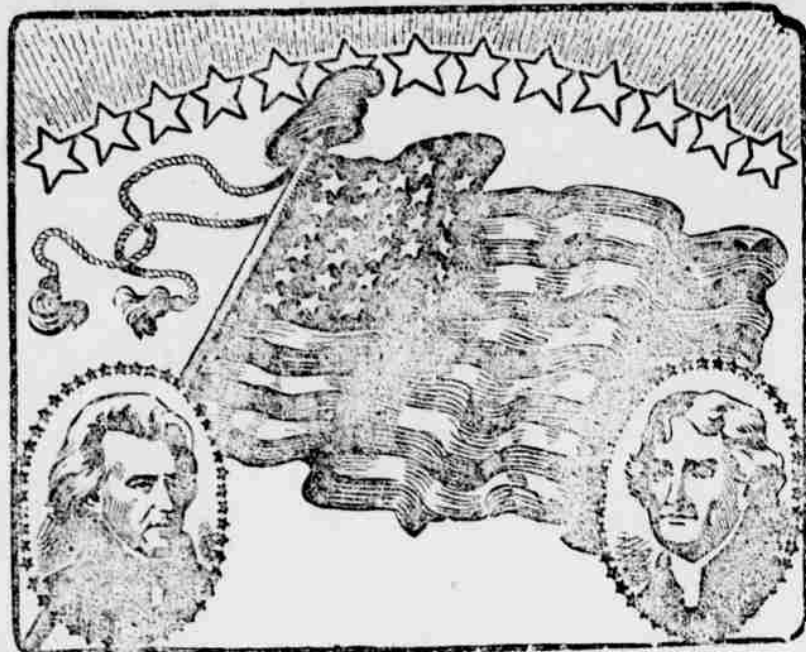

Address, Claud Money, Canyon City, Texas.

You furnish the whiskers and F. M. Coulter, the barber will do the rest.

For artistic wall paper see Oscar Hunt & Co., they have some of the prettiest designs and colorings ever shown here. Price's always right.

Only the very best woodworking material carried in stock, and it is unpainted so you can see exactly what you are getting at Harter's.

GREATNESS OF AMERICA.

The United States is the greatest of nations because opportunity and fortune and the Goodness of Providence have dealt more kindly with us than with any other nation. One-half of one single State—Texas—could easily take care of all the people of the nation. A thousand million souls could find homes, comfort and actual wealth here, even with imperfect production and distribution—and still all of Alaska and hundreds of thousands of square miles of territory would be held as a reserve.

The material wealth of the American nation, its lands and mineral possessions, are past our comprehension. But they are

Faucher Forget-me-nots.

(For The Stayer.)

We are still waiting for the rain or snow that does not come, although, the wheat is looking almost as green as if it was raining every day, but sod turning has stopped.

Stock still doing well and grass trying to start, and, with such weather as we have been having we would have early grass if we could get the necessary moisture.

Some parties have been offering from eighteen to twenty dollars for two-year-old steers but they have found few takers as we have had offers from a distance at better figures and many anxious inquiries indicating that good stuff will bring top prices this spring.

Born:—To Mr. and Mrs. Will Ward, of Beverly, on February 26th a fine boy. All doing well.

Born:—To Mr. and Mrs. E. Brooks, on the 27th of February a girl. All doing well.

Mr. Will Doughty and his little son has been very sick with grip and pneumonia but are now convalescing.

We have to chronicle the death of our good friend and neighbor, Mr. J. M. Clayton, on

HEREFORDS FOR SALE.

I will sell at a bargain if taken in the next thirty days 83 1/2 to FULL BLOOD STOCK CATTLE.

I have used with these cattle the very best bulls that money could buy. There isn't a cow over six years old. I will have 80 head of three-year-old heifers that will bring calves this year that will interest the most sceptical. My reason for disposing of my entire grade herd is to handle registered stock altogether. Come soon, they are going.

This is a chance for some one to get a good herd. Call on or write to

as nothing compared to the Mental wealth of the nation. It is the Brain of man, not the soil, that makes man's prosperity. In the American brain, happily free from prejudice, exempt from traditions, caste and fore-ordained social barriers, the nation finds its greatest wealth.

"Beyond question, in respect to mechanical appliances, Americans are ahead of all nations."

They are ahead of all nations because their brains invent. The American Government issues at least four times as many patents as does the Government of Great Britain, and American inventiveness lies not alone in the man who takes out a patent. It is even more important in the Workman, who uses his brain and invents quick ways of finishing his task. Every man imbued with the American spirit is an inventor.

The great advantage of America resides in the fact that its men think as they work, that time and class discouragement have not combined to make machines of the individual national atoms.

Heine said of the English:

"If their machines are like human beings, it must be said that their human beings are like machines."

This cannot be said, and will not be said, of Americans until the national character shall change.

The University of Texas Summer School enrolled more than two hundred students during the session of 1901, the larger proportion being teachers with an ambition to improve their scholarship and teaching power. The splendid library, well equipped scientific laboratories and spacious class rooms will be open to the teachers of the State at a nominal expense. For a catalogue, giving a full account of the courses of study offered, address the Registrar, Austin, Texas.

HOGG SHIES AT KNEE PANTS.

WILL NOT DON THE ENGLISH COURT DRESS EVEN FOR THE PRIVILEGE OF MEETING KING EDWARD VII.

London, March 2.—All the arrangements had been completed with the United States Ambassador, Joseph Choate, to enable former Gov. Hogg of Texas, who is in London, to be presented to King Edward at the forthcoming levee. A hitch occurred, however, for Mr. Hogg found he must appear in knee breeches, sword, etc., the regulation court dress.

"Never," said Mr. Hogg, "if I cannot appear in the ordinary evening dress of an American citizen I will not appear at all. A pretty sight I would look rigged up in those gawks. I have not the faintest idea of trying to revolutionize or even of trying to Englishize, but, blamé if I'll wear another country's uniform—no, not even for the sake of meeting the King."—Dallas News.

Hurrah for our James Stephen. He is a man, every inch of him, and we glory in his pride and determination not to make an exhibition of himself to see a man, who, by the accident of birth, is the equal only to any American gentleman and no wise better than the humblest hod carrier in America and certainly not more than the equal of an ex-Governor of Texas.

If you have any disease, injury or deformity of the eye, consult Drs. Odell & Stewart, Canyon, Texas.

The banner crop of sorghum seed in Hall county has been reported by the Herald twice so far this year, but each time some fellow has come along and over-reached the pile. We have now to report what we believe to be the very largest crop of sorghum seed threshed in the country. It was by J. B. Russell and was all raised by himself. It measures out from the machine 1150 bushels and will perhaps weigh out more than that. He did not plant the crop for the seed either but for feed. The seed crop is thus clear gain of about \$1800 more than he expected to realize from the crop. This crop is several hundred bushels larger than Mr. Dial's crop.
